

Athletics Healthcare Administrator Association

A COMMUNITY DEDICATED TO NAVIGATING THE CHALLENGES AND COMPLEXITIES OF ATHLETIC HEALTHCARE ADMINISTRATION AND COMPLIANCE.

The U.S. Council for Athletes' Health (USCAH) founded the Athletics Healthcare Administrator Association (AHAA) to be a resource, sounding board, and solution for the community of healthcare administrators. The AHAA provides access to resources that support athletic healthcare administrators, as well as athletic trainers, physicians, and administrators interested in the safe and effective delivery of healthcare to athletes.

At USCAH we recognize that at many NAIA schools an athletic trainer or head athletic trainer often fulfills the role of athletic healthcare administrator. If this is the situation at your NAIA institution, then the AHAA is exactly what you need.

AHAA Membership offers a virtual community of support, networking, programing, professional development, and a community of connectivity and collaboration with like-minded and similarly driven professionals—this is why we created the Athletics Healthcare Administrator Association.

We partnered with the NAIA because at USCAH we believe it is our mission to collaborate, inspire, and ensure athlete healthcare and safety for every NAIA school is a priority.

The AHAA virtual solution for your athletic organization offers:

- Virtual Membership Platform
- Professional Development
- Industry Networking
- Expert Advice
- Event Access
- Exclusive Discounts
- Best Practices
- Membership Directory

The Athletic Healthcare Administrator Association (AHAA) membership is a platform dedicated to helping everyone that touches the Athletic Healthcare Administrator industry.

Professional Development

- Thought leadership resources available from peers and experts within the world of Athletic Healthcare shared through industry articles, expert resources, and interactive discussions.
- Easy access to current and timely updates, as well as documented compliance with athletic healthcare administration best practices/requirements.

Industry Networking

- Chat with fellow healthcare administrators on private discussion boards
- Learn about the latest compliance criteria from expert webinars
- Connect at exclusive industry events

Membership Platform

- Take advantage of education and cultural development resources through live discussions and real-time articles, as well as a membership directory.
- Simple, virtual platform that supports meaningful discussion and feedback to assist members with communication and implementation at their institution.

Best Practices

- Education and professional development through member discussion boards, expert webinars, and industry events.
- Access and discounts to the AHAA Annual Conference, a meeting bringing the stakeholders responsible for athletic healthcare and safety administration in one place for industry updates and expert insights.
